- Responsible for the subjects of mathematics, computer science, technology and physics at all levels of ESO and Baccalaureate.
- Teaching more than 150 students.
- Developer of teaching materials to enhance the experience and academic performance in groups.
- I developed a video game programming workshop in the computer science class in order to promote programming in young people.

15/07/2023 – CURRENT Barcelona, Spain

FRONT-END DEVELOPER SALESCLALING

- Worked with different technologies for web development such as React, NodeJS, Tailwind, Git, Doppler... and for design part Figma, Illustrator and XD Adobe...
- Supervise designer team that the product is what was needed.
- Quickly learned new skills, improved the current ones, and even of back-end, end to end processes, and applied them to daily tasks, improving efficiency and productivity.
- Carried out day-day-duty accurately and efficiency.
- Work with SCRUM.
- Used critical thinking to break down problems, evaluate solutions and make decisions.
- Maintained energy and enthusiasm in fast-paced environment.

Barcelona, Spain

FRONT-END/LEAD FRONT-END DEVELOPER AUDITING SOFTWARE DISTRIBUTOR

- Promoted to **Team Lead** on January while maintaining responsibilities as Front-end Lead and hands-on developer, overseeing project direction and actively contributing to code.
- Established an efficient folder structure based on features, optimizing code scalability and maintainability.

- Lead a team of front-end developers since October, ensuring high-quality project delivery by implementing consistent coding standards and best practices in Vue 3, ReactJS, NodeJS and TypeScript.
- Strategically introduced tools like Tailwind CSS, MaterialUI and PrimeVue to deliver a consistent and high-performance UI/UX, while avoiding conflicts with existing custom styles.
- Oversaw the integration of additional libraries, such as Vuetify and Headless UI, ensuring compatibility and seamless user experiences.
- Foster collaboration among developers through constructive code reviews and internal workshops to enhance technical skills and team cohesion.
- Designed and enforced clear standards for code comments, promoting a more organized and comprehensible development environment.
